That 'Inside' Information On Oswald

I was interested to read the remarks of Mrs. Green in The Deseret News. It appears that she has fallen into the snare of generalizations, exaggerations, and over-simplifications. It also appears that she does not read the newspapers, or else she regards them as a "socialist tool."

Mrs. Green's letter contains a wealth of information that I am sure the Central Intelligence Agency would like passed on to its files. Where, for instance, does she glean the information that Castro will be replaced by a more cooperative leftist, just before the '64 election? And from what source comes the information that Mr. Oswald attended "the Red agitation school in Minsk"?

Has it occurred to Mrs. Green that many people across the nation had said, "The Communists will kill Oswald before he tells what he knows"? Merely because Mr. Ruby's sister happened to be one of these holds no significance. I would be willing to bet that Mrs. Green herself uttered words to that effect.

It is a pretty fair generalization to say that little good can come from a doctrine of hate. One does not fight fire with fire, but with water. In a similar fashion, one does not fight communism with Communist tactics of slander and libel, but by smothering the sparks that jump from the fire, and containing the fire until it extinguishes itself.
